

EcoBasic PAR30

Features

- Long Life
- 4x Energy Efficient
- Instant On
- RoHS Compliant
- Lead Free
- Mercury Free
- No UV
- Cool to Touch

EcoSense PAR30 EcoBasic white light lamps are the ideal replacements for standard incandescent and halogen lamps. It makes sense to replace non-efficient, hot, conventional lamps with these cool, extra long source life, low maintenance, low power consumption, and no UV radiation lamps.

Four times more energy efficient than incandescent lamps, EcoBasic PAR30 does not contain mercury found in compact fluorescent lamps. EcoBasic PAR30 is suited for interior architectural, retail, exhibit, and display applications. These cool to the touch lamps pay for themselves in energy savings and replacement costs in the first year and provide substantial savings over the 50,000 hour life of the lamp.

Specifications

Lumen Output

Warm White	475 lm
Neutral White	550 lm

Efficacy

Warm White	45.2 lm/w
Neutral White	52.4 lm/w

Color Temperature

Warm White	2800 K
Neutral White	3800 K

Color Rendering Index

Warm White	75
Neutral White	75

Rated Life 50,000 hours

Beam Angle 40°

Power Consumption 10.5 watts

Operating Temperature -4°F to 104°F (-20°C to 40°C)

Operating Voltage 100 - 240VAC, 50-60 Hz

Housing Painted, die cast aluminum

Weight 14 oz. (360 g)

Socket Standard E26 base

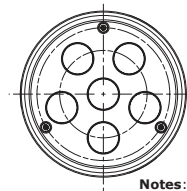

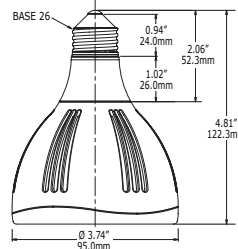

Warranty 3 Years, limited

Certifications (Pending)

Restriction of Hazardous Substances Directive (RoHS) implements EU Directive 2002/95 which bans placing electrical and electronic equipment that contains more than agreed levels of hazardous substances on the EU market. For a list of these substances visit www.rohs.gov.uk.
