

EcoSense Lighting Fixtures must be installed by a qualified electrician. EcoSense Lighting, Inc. is not responsible if its fixtures are not installed in accordance with all national and local safety standards.

EcoSense Eclairage doit être installé par un électricien qualifié.

EcoSense Lighting, Inc n'est pas responsable si son appareils ne sont pas installés conformément à toutes les normes de sécurité nationales et locales.

INCLUDED / Inclus

RISE Canopy/Junction Box Cover / RISE Canopy/Junction Box Cover

NOTES

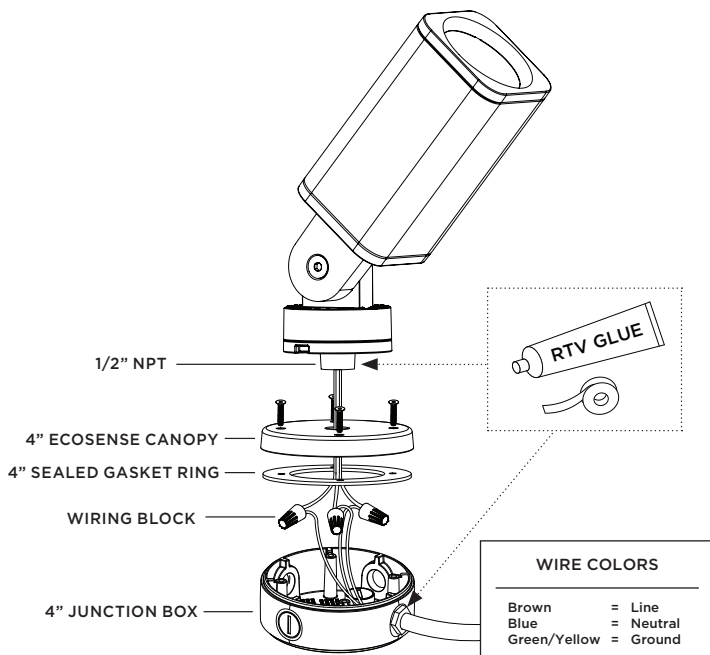

CANOPY/JUNCTION BOX COVER / Canopy/Junction Box Cover

1. Choose junction box* type, and secure to mounting surface.
2. If using the EcoSense Canopy Junction Box Cover, ensure the screws are held in the canopy, held securely using the gasket ring BEFORE mounting the RISE fixture.
3. Run wires through the junction box cover and gasket ring. Mount fixture via 1/2 inch NPT nipple and 1/2 inch NPT lock nut to the junction box canopy.
4. Create secure wire connections to the main power cables through wire nuts or wiring block as per local electrical code. (Refer to images for both flying leads exiting the fixture and external rated cable.)
5. Fasten junction box canopy to the junction box. (For damp or wet locations, use an exterior rated junction box and install per manufacturer instructions.)
6. Seal the screw holes and side gasket using RTV and Seal tape.
