DATE	PROJECT	FIRM	TYPE
------	---------	------	------

**DESCRIPTION**

Available in 3 different lengths and interchangeable in the field, EcoSense's Modular Stem allows for the specification of the desired drop height from the track adapter to the fixture head. Additionally, museums and showrooms can stock extra stems in various lengths in order to accommodate the required flexibility of revolving exhibits.

**FEATURES**

Interchangeable in the field  
 Available in 3 different lengths  
 Multiple stems can be connected together to extend drop length

**FINISH**

White or Black Powder Coat
