Ensure power is OFF

Connect Fixtures and Power
Using DBR waterproof wire connectors, connect line, neutral, and ground within the stake connection box or the junction box.

Read and understand the installation instructions before attempting to install or use the fixture.

Only use fixtures with voltage for which it is rated. Do not exceed the specified voltage and current input.

Do not use fixture if the housing, lens, or power cable are damaged.

Fixtures have line voltage risk of shock and no user serviceable parts. Do not attempt to open.

Do not hot swap. Ensure that power is off before connecting or disconnecting fixtures in the series.

Ensure that main power supply is off before installing or wiring a fixture.

Always switch off the electricity supply at the mains during installation and maintenance. Before installing, please prepare terminal block which is suitable for 2x1.0mm² H05RN-F connecting leads and supply cord installed by client and IP67 terminal block box. (NOT INCLUDED IN THIS UNIT)

LED Radiation. Do not view directly with optical instruments. Class 1M LED Product
